1. What is your connection or interest in this case? * For example, are you a customer of the Company that is the subject of this pending proceeding? (This section must be completed. Attach additional information if necessary.)

I am a Dominion customer who installed roof top solar and will be financially harmed by Dominion's proposed fees and reduced reverse metering revenues

2. Please give a concise statement of your protest. * (This section must be completed. Attach additional information if necessary.)

I invested \$16,000 in a roof top solar installation 5 years ago, and it has off-set 80% of my electricity use; that is an 80% reduction in carbon emissions, and, since my panels face west, they relieve Dominion of the air conditioning afternoon peak in the summer. The fees proposed by Dominion will wipe out the entire financial incentive to install roof top solar.

These fees demonstrate Dominion's total indifference to the Climate Crisis and make the company part of the problem and an obstacle to the solution.

3. Do you wish to make an appearance at a hearing in this proceeding, if scheduled, and offer sworn testimony? *

Yes I signed up to make statement when reached by phone.
